Company presentation

Company overview

ONE TWO CARBON GENERAL TRADING L.L.C is Dubai based branch of Donex LLC - trading subsidiary of the [Transugol LLC](#) group of companies that includes various production assets in coal and mining business.

ONE TWO CARBON GENERAL TRADING L.L.C was founded in Dubai in 2022 and started its activity as trading company in solid fuels market. We specialize in supplies of following products:

- Brown - a young coal, in which up to 70% of the carbon component. It is characterized by low combustion temperatures; therefore, it is used for organizing local heating.
- Stone - the next age coal, in which the carbon content reaches 75-95% (depending on the brand and grade). It is actively used in metallurgy, chemical industry.
- Anthracite - distinguished by a high degree of coalification. It has a high heat capacity and low flammability; therefore, it is used as a fuel with high efficiency.

Key product for the company at the moment is Anthracite. Material can be delivered in bulk or packed in big bags or liner bags. Transportation modes are containers or dry cargo vessels.

Major markets for the company are:

- Gulf region countries (UAE, Saudi Arabia, Oman, Bahrain, Qatar) metallurgical companies.
- Southeast Asia market (Indonesia, Malaysia, Singapore) metallurgical companies.
- India market for both metallurgical sector and energy sector.

Products

Dry anthracite steel industry

Specification	Standard quality	Best possible quality
Carbon content	88.0%	95.0 %
Ash content	7.0%	2.0 %
Sulfur content	1.0 %	0.6%
Moisture content	2.0 %	0.4%
Volatile matters	2.5 %	2.0%
Fraction options	0-2, 0.3-3, 1-3, 1-4, 1-5, 2-4 – for injecting and recarburizing 10-30, 10-50 – for charge	

Anthracite mark “A”

Specification	Standard quality	Best possible quality
Carbon content	77.0%	88.0 – 89.0 %
Ash content	9.0%	2.0 %
Sulfur content	1.5 %	0.6%
Moisture content	10.0 %	7%
Volatile matters	2.5 %	2.0%
Fraction options	Coal AШ (0-6 мм) , Coal ACШ (0-13 мм) , Coal AC (6-13 мм) , Coal AM (13-25 мм) , Coal AO (25-50 мм) , Coal AO (25-70 мм) , Coal AKO (25-100 мм) , Coal AK (80+)
